# Let the Buyer Beware

TOR centuries the principle of "Let the Buyer Beware,"
"Caveat Emptor"—ruled the world of business.
In fact, it was not as principle—but rather a lack of principle—yet it held sway everywhere until a decade principle— or two ago.

When a merchant quoted a price, he made it high enough to stand almost unlimited whittling, and yet be profitable—to him. When he spoke of quality, his fingers were crossed, and you were not expected to believe him —unless you wanted to very badly.

Business—once an aggregation of tals—has become the living embodi-ent of ideals.

You see business confidence is a good deal like capital, in that it accumulates like savings. The grocery-consumer's confidence in a town will

be on deposit chiefly with a few capable square grocers; and dry-goods confi-dence, jewelry confidence, and so forth, are massed in the same way.

The retail merchant doesn't lock this confidence in his safe. He deposits it in turn with the wholesaler, who passes it on to the manufacturer. And the manufacturer, to make the circle complete, must give confidence to the consumer.

The manufacturer with goods to sell must draw upon all these reserves of confidence. He must demonstrate his own fairness in dealing his integrity in maintaining quility, his willingness to put principle before willingness to

Advertising is the means through which the manufacturer makes this demonstration to you.

Advertising has given personality to commodities, so that you now recognize your "friends" among soap, tea, or collars, as readily as you recognize your human acquaintances.

Advertising fathered the "money back" principle, and has made buying a pleasure instead of a duel of wits,

Advertising has spread the one-price policy—erased "Caveat Emptor" from the language of business, and made buying safe to entrust to a child.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or through the Secretary of the Canadian Press Association, Room 1902 Lamaden Bilds, Toronto, Emputry involves no obligation on your part—write if interested.

THOSE who put style before everything else, choose Fit-Reform Spring Over-

coats.

Those who demand value, pick Fit-Reform Spring Overcoats every time.

There'll be plenty of cool nights this summer when you'll need a light overcoat. And these overcoats will be just right for early fall wear. They are made with the new English shoulders not exaggerated, but with the style and elegance that gentlemen demand.

Some at \$15, \$18 and \$20 — in the new grays, tans, blacks and novelty mixtures. All with the careful tailoring and rich appearance that characterize every fit Reform garment. 507

GRAFT AND BRIBERY; TAVERN LICENSES

It was frequently charged by the Conservative press, and by Conservatives that during the reign of Gritism in Ontario hotelkeepers wire flevoed by those who had the granting of licenses to sell liquor, out of suins of money proportional to the importance and value of their business, in some cases for person-al, and in other cases for political poses. That this was practiced a well known, and that it was ex-ed in Belleville many years ago and the Belleville interpretation of the state of the sta go a threatened litter suit, as a 1800 cold plan he was asking too made, thich, however, was a mere bluff take 1800 and that we not take the would take 1800 and that we not made with the suit of the third take 1800 and that we not made when the was going the little loan of License Commission of the world was not made when the was going the little loan of License Commission of the world was not on mach when it was going the loan of the world was too on mach when the was commission of the world was too on mach when the was commission of the world was too on mach when the was commission of the world was too on the on the part of the then Chairman of the Board of License Commissioners, who, in spite of the com-plete exposure of his criminality,

#### JUDGES IN POLITICS

That Judges in the United States should air their political opinions on the stump is not surprising. In that country many of them owe plant, knowing that if they did with the properties of the propert adhervise. ## Try PURITY—the every-purpose flour

for bread, rolls, buns, biscuits, layer cakes, short cakes, griddle cakes, fruit cakes, pies, puddings, cream puffs, tarts, ginger snaps

In the making of everything for which flour is required, PURITY FLOUR gives admirable results. Among thousands of cooks it is spoken of as "The every-purpose flour."

No matter what you may desire to make, use PURITY FLOUR. The results will give you a higher degree of satisfaction than you've ever experienced when ordinary flour was used.

There is added deliciousness to the flavor,

extra quality in every ounce of the bread, or the cake, or the biscuits, or whatever you may make with PURITY FLOUR.

PURITY FLOUR gets its finer flavor, greater strength, extra nutritiousness and higher-quality

from the high-grade portions of the hard wheat berries. All the low-grade portions, are excluded during its process of milling. PURITY FLOUR will cost you slightly more than ordinary flour. But it's worth more. It costs more to make it.

The present huge demand is your proof of how firmly PURITY FLOUR has established itself among the thousands who place quality before price.

and better bread"

and better bread"

Reminder: On account of the extra strength and extra quality of PURITY FLOUR, it is necessary, for best pastry-results, to add more shortening than you are accustomed to use with a "Elentled" or Ontario wheat flour. Add more water when making bread. Add PURITY FLOUR to your grocery list right now.

STATE TOWN

# Lowering the Cost

REDUCED to its simplest terms, the price of an article is the cost of material-labor of manufacture. transportation, distribution, sale, and delivery-

Let us take the case of a fountain pen to show what price is.

First, the materials must be produced—the rubber in Para—the gold in South Africa or the Yukon—iridium

Then all these must be transported to the factory. There the rubber is vulcanized into holders: the gold refined and stamped into points; the iridium tipped on to the gold; and

The labor operations on a fountain en run well over the hundred mark, and expensive machinery is required or almost every one of them.

Manufacturing completed, the pens are sold to jobbers and retailers— transported hundreds and thousands of miles. And profits are taken, at every step, remember that.

After the wholesale distribution, the stail sale is made—delivery com-

pleted, and the pen at last put to its destined use.

Suppose you have paid \$1,50 for one of the standard well-known fountain pens. Do you begin to realize what an imposing number of things that \$1,50 he spaid for? Haven't you a presty clear idea that, if these a perty clear idea that, if they of your pension of the pension of the pension of the pension of the pension of one single position of the making of one single position of the pension of magnate to buy it?

Is it not perfectly plain that Quan-tity controls price by one of the simplest of natural laws?

Para rubber by the shipload—gold and 'iridium by pounds instead of milligrammes—labor of thousands organized and directed—transportation in car lots—and sales by the million—to every schoolboy, stenger, business man—to every one who writes.

It is all this gigantic expenditure, divided by the countless units of millions of sales, that makes it possible to buy a fountain pen for \$2.50. The more sales, the smaller becomes the cost of the unit.

We know that Advertising has raised Quality.

We know it has standardized prices.

And now we see that Advertising increases sales, shortens the road between producer and consumer and lowers prices.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or through the Secretary of the Canadian and Persa Association, Room 503 Lumater Building, Toronto. Enquiry involves no obligation on your part—so write if interested.

# The Ideal Combination in a Motor Car McLaughlin-Buick

We assume you are looking for a comfortable, simple, easy-riding, economical car, one that will give you a tremendous mileage, and uninterrupted daily! service—a car with power and speed.

The McLaughlin Carriage Co., with over forty years reputation at stake, offers the McLaughlin Snick motor car to you as a car of just this descripti

Actual performance therit, and true worth of the design, material, and workmanship in a Me-Laughlin ear. Let us give you a

demonstration. We will take you up hills on high gear that no other care climb on direct drive. We will give you a test of riding quality, flexibility, springs, aske, frame, and power, that will convince.

The power plant in every Me-Laughlin car is a Buick motor. If you are familiar with the automo-biles in the United States, you know that there is not one giving greater satisfaction than the Buick. It is admitted to give the greatest mileage at the lowest cost per mile. That is why we use the Buick motor only in all McLaughlin-Buick cars.

We sell the McLaughlin car strictly on its merits and on the strength of our reputation. We have a re-cord of satisfied customers during the last forty-three years, and this reputation is worth more to you than the eleverest argument of an auto-mobile salesman.

The puzzled investor who wavers between the high re-turns promised by stocks with little or no security behind them and the lower returns of a well-secured bond will be attracted to a security which offers the unusually high yield of? per cent; combined with the security of invest-ment in a large Canadian industrial concern of 27 years standing.

The Siemon Company, Limited, is one of the largest manufacturers of Hardwood Flooring and Veneers in the British Empire. Its growth for a warrer of a century has been steady and rapid. It now owns several milis and valuable bardwood timber limits in Canada and ships its products all over the world.

We would be pleased to send full particulars regarding the Company and to describe the extensions and improvements contemplated. It is to provide these that the present offering of stock is made.

# Better than Ringing Door-bells

A PIANO manufacturer recently made a houseto-house canvass. He's one of those men with an absurd fear of the "waste-circulation" bugaboo -cannot get away from the haunting thought that only 10 out of every 100 readers of a newspaper may be possible buyers of his goods.

So he refused to advertise, and went a-canvassing -inviting people to come to his piano recitals. Then he wondered why they didn't come.

This is why:

He wasn't reaching the people.

His canvassers rang every door-bell in town. They talked to some one in every

Who is Your Customer?

HAVE you ever met your real customer? Have your salesmen a speaking acquaintance with him? Have you told him about the merits of your product? Have you explained why he should give your goods the preference? Have you done anything to stimulate his desire for your goods?

In short, have you made any attempt whatever to sell your goods to him?

"Most assuredly," you say. "Every dealer in Canada is kn wm to our trav-elers, and we certainly wouldn't pay a salesman who couldn't tell our cus-tomers all——"

One minute, pleach. The dealer isn't your customer. He's simply a part of your sales organization, and a decidedly independent part of it at that. He is distributor for other conceras in whose goods he is just; an much interested as he is in yours. And he isn't particularly interested in your product, any more than in your competitors'.

"Well, now your tire is punctured, let's sit down like good friends and repair it."

The bulky materials of brain are water and albumin, but these things cannot blend without a little worker known as Phosphate of Potash defined as a "mineral salt."

Potash defined as a "mineral salt."

One authority Genégan, shows in his analysis ot brain, 5.33 per cent total of mineral salts, over one half being Phosphoric Acid and Potash Combined, (Phosphate of Potash) 297, per cent.

Beaunis, another authority, shows Phosphoric Acid and Potash (Phosphate of Potash) more than one-half the total mineral salts, being 73:44 per cent in a total of 101.07.

Analysis of Greeneut's shows Potassiam and Phosphoris (which joins and make Pholphate of Potash) is considerly more than one-half of all the mineral salts in the food.

## WON AGAINST GREAT ODDS

The most desperately fought increased the streun disble confu-and bloodiest battle in which Bri-sion, and the mighty mass, giving ish soldiers ever took part, was way like a loosened cliff, went tish soldiers ever took part, was fought at Albuers, in Spain, one indred and one years ago, fiame-on the 16th of May, 1811. Marshal Beresford, who was one of Wellington's divisional officers, was in command of the British and Portuguese forces, but the victory was achieved not by him but by Col. Henry Hardinge, who after-wards became Commander-in-

Chief of the British army.

Wellington bad directed that wellington had directed that Badajos, which some months later cost so many lives, when it was stormed, as described, in a previ-ous article, shoud be besieged, and Marshal Beresford was placed in command of the covering my. The French Marshal Soul ho was Napoleon's ablest lieuten

ant in the Peninsula, advanced with an army of 23,000 men to the elief of the belenguered fortress, and Beresford retired to the ridge where he prepared to give buttle. His force consisted of between 7,000 and 8,000 British, some Por-tuguese brigades, 10,000 undisciplined Spaniards and 2,000 cavalry plined Spaniarus anu 2,000 ca and Beresford's dispositions were un-skilful and his position badly chos-eu, so that the French gained great, dvantages, early in the fight. The second British division was very badly cut up, some of the regiments had exhausted their ammu-nition, six British guns had been captured, the field of battle was in order, the French lancers were Beresford was about to give orders for a retreat. But now a more K

# Service Must Speak

A STORE is almost human. It is full of temperament. It affects each customer with the composite personality of its management and staff.

There are stores and stores. There are "grouchy" stores and "smiling" stores. There are lippant stores and dignified stores. And the peculiar thing about cach is that the goods or the prices have little to do with the store is temperament. It is the, personality of the store that colors and defines the character of the goods from the customer's view-point and wins or repels approval.

The temperament or personality of a store is vividly expressed in its face. The face of a store is its advertising. You can judge a store by its advertising the same as you can judge tising the same as you can judge a man by his facial expression. Stores that honestly try to serve their customers best simply can't help advertising. It is the way of human nature that when we have spent the best of our brain power and physical and financial resources in building, up something worth while, our enthusiasm bursts forth into publicity. We simply, cannot restrain the desire to tell others about it. In the long run, service is what you pay for, always. The goods, as goods alone, are inci-dental. Service implies quality, fair prices, safe treatment, and hopesty in every detail of every transaction.

The service store is the "serving" store. It is also the honest-advertising store. By this, you may know it always-anywhere.

Addice regarding your advertising problems is available through any recognized Canadian advertising agency, or through the Sectedary of the Canadian Press Association, Room 503 Lumsden Bible, Toronto, Enquiry incolors no obligation on your part—so write, if interested.

ELECTION

An tinteresting election case I to be tried in the Province of Quepartizan Returning Officer can go In deciding the legality of a nomintion paper!

It appears that on the 14th of September, nomination day in Quebec, the nomination papers of both Dr. Ethier, Liberal, and Mr. Fauteux, Conservative, the present contestant, were placed in the hands of the returning officer, in aductime: Dr. Ethier entered a protest against Mr. Fauteux's paers, on the grounds that the latpers, on the grounds that the ter's occupation was not given or the papers. The returning officer, Liberal, took cognizance of the ob-jection, went to Montreal, consulted a lawyer, and returned to St. Scholastique next morning, and de-clared Dr. Ethier elected by ne-

The contention of Fauteux is that as the returning officer received the nomination papers along with the necessary deposit, the only course open to him in law was either to declare one of the candidate forthwith elected by acclamation, or to send both before the on the 21st of September. power of a returning officer to declare a candidate elected in the manner described ceased at the close of nomination day? Thus the returning officer, claims plaintiff, in taking it upon himself to declare . The Halloss Package protects you fully from inferior sugars which are sometimes sold as

Extra Sugar

In the Carton you are sure of getting five pounds full—weight of genuine **Rector** Sugar, which for over half a century has been acknowledged as Canada's best. Besides, you get a handy box in which to keep it.

If you prefer to buy a considerable quantity at a time, take a case of a #Five-Pound Cartons. The case takes up little room, and the package of Extra Granulated in are so convenient in the pintry. Of course your Grocer will still sell you Extra Granulated in barrels or in 20 or 100 pound bags if you wish. Buy it in original packages and be sure you get the genuine Redpath.

## You've thought about trying PURITY FLOUR Now Act!!

FOR some time there has dwelt in your mind the thought of trying PURITY FLOUR—the flour that consists wholly of the high-grade portions of the best Western hard wheat.

That's a good thought. It indicates a desire for improvement in your baking-talent—an ambition to increase the deliciousness of your bread and pastry. Don't let that good thought perish. Turn on your will power. ACT!

"More bread and better bread"

PEMINDER: On account of the extra steepth and extra quality of PURITY FLOUR, best pastry-results are obtained by adding more abortening than is necessary when using the ordinary Ontario or blended flours. Also add more water when making bread,

ring.
The following is evidence of that least the state of the state o One of the assertions which wer cost persistently made by the Grit ress during the Dominion election contest last year was: that the rade of the country would be in-uriously affected if the Taft-Laurier Reciprocity pact were rejected; but the facts and figures which have been published by the De-partment of Trade and Commerce demonstrate conclusively that that ascertion, like most of those which have emanated from the same source, was the reverse of truth. Canada's total trade for the past fiscal year, the official returns state, amounted to \$862,699,732, an in-

crease of no less than \$103,605,313, as compared with the preceding fis-cal year. Imports totalled \$517,-382,582, an increase of nearly \$6,-000,000; exports totalled \$315,317,-The year's increase in trade, over fourteen per cent., is one of the largest, if not the largest in the targest, if not the largest in the history of Canada. According to present indications the Dominion's trade for the current fiscal year will run very close to the billion-dollar

year .\$335,204,452 were dutiable goods, while \$186,144,249 were free goods. The Customs revenue total-led \$87,548,452, an increase of \$14,250,908.

Exports of domestic produ totalled \$200,223,857, the principal items being: Agricultural products, \$107,143,375; animals and their produce, \$18,210,651; mines, \$41,342,516; forests, \$10, 892,674; manufactures, \$5,836,281;

fisheries, \$16,704,678.

The increase in agricultural exports was approximately \$24,500,000. In manufactures the increase was not quite half a million. Fishories exports increased by a little over a million. On the other hand there were decreases of a little over four millions in the expert of ani mals and their produce; nearly five millions in the exports of the for-est, and a million and a half in min-

, \$26,083,881, as compared with only \$10,206,210 for the preceding year.

Beautiful Crystal Cut Glass for the June Bride

A thing of beauty and a joy forever, justly applies to the cut glass we are showing. After careful buying and selecting we have brought together best values and latest cuts to be had, and altho

they are out of the ordinary, the prices are extremely low, considering the quality of the glass. Modest pricing has been the watchword as a glance at the ar-ticles mentioned below will show. For instance:

Special rich cut glass sugar and cream set at \$2.85 Is excellent lue; others at \$3.25, \$4.50, stc.

Water Jues from \$5.00 to \$8.00.

Glasses to match from 25c. to 45c

Bon Bon Dishes, some twenty different designs to choose from, ry dainty at \$1.25 to \$12.50. Flower Vases, richly cut, from \$2.75 to \$2.00

Salts and Peppers in pretty cuts from 35c, to 50c, each

Other useful pieces such as lee eream trays, jelly dishes; (flat and footrd) celery trays, decanters, water-bottles, carring set resis, pseud lozes, fern dishes, etc., etc. Any one of these insumerous ar-ticles mentioned would make a very handsoom wedging glit.
